

Dear recruiting team,

Responding to your job posting, I would like to present my resume for your consideration. Being experienced in financial institutions, dynamic, willing to learn, think smart and act fast, I believe that this position is suitable for me.

I am currently a student of master course at final semester at Warsaw School of economics (SGH). I am taking the course of global business, finance and governance which provides me competent knowledge in applying science in business management and governance. During studying time, I involved in many projects about innovative service management and the CEMS course with L'Oreal in business strategy. My study also covers knowledge of international finance, risk management and derivatives which assures me to have qualification in capital market.

I have experience in multinational banking institutions which provided me round-set experience in banking service and operation. I took responsibility as an expert in financial products in MUFG group where I could build up strong knowledge on customer service, cash management, business strategy, and accounting. Besides, I am proficient in process of anti-financial crime and regulatory landscape of AML/CTF, CDD, KYC, transaction monitoring and sanctions. I lately worked for DBS group as associate in technology and operations division. I had chance to work with diversified people with different culture and different background. By that way, I could improve my skills in project management. As a project coordinator in system development, I entitled in getting comprehensive understanding of financial products and customer's expectation in order to assist the at superior level, to provide them better services and connecting technology group in host country to the one in offshore.

My enclosed resume will provide you more details about my qualifications and my experience. I am looking forward to having an interview for more details.

Thank you for your time and consideration.

Sincerely.

Anh Phan
